About Me

Computer Science student at Walchand Institute of Technology, Solapur, with a strong foundation in MERN stack development, data analysis. Proven ability to lead and collaborate in diverse teams through hackathons and real-world projects, including a farmer-focused e-commerce app and a Kannada learning game for the Karnataka government. Adept at problem-solving, public speaking, and learning new technologies. Passionate about leveraging tech to solve real problems and committed to continuous learning, with additional interests in GATE prep, Japanese, and piano.

Skills

- Scikit Learn (Machine Learning Library)
- Supervised Learning
- Machine Learning
- Data Structures
- Web Development(MERN)

Experience

- KannadaLearn - <https://rnv.foo.ng>**
An app to learn kannada language 2025
Built a gamified language learning app to teach Kannada through interactive lessons like greetings, numbers, and family terms. Features include XP-based progress tracking, daily goals, and drag-and-drop exercises. Tech stack: Next.js, Tailwind CSS, TypeScript.
Currently in talks with the Karnataka government to explore integration into state education platforms.
- Mandi - <https://webcomp.pages.dev>**
E-commerce Platform for Farmers 2025
Developed a web app that connects local farmers directly with consumers and retailers, eliminating middlemen. The platform allows farmers to showcase fresh produce, manage inventory, and receive orders in real time. Focused on accessibility, simplicity, and location-based delivery.
- 1M1B Green Internship**
Sales Force
Completed a government-recognized internship focused on e-waste awareness and sustainability. Led a successful awareness campaign, gathering 50+ pledge signatures.
Learned Tableau and created interactive dashboards to visualize e-waste data and track campaign impact. Strengthened skills in data analysis, public speaking, and community outreach.

Certifications

- Supervised Machine Learning: Regression and Classification**
Stanford University
- CS50x**
Harvard's CS50
